EDUCATION

National Institute of Technology, Silchar <i>Bachelor of Technology - Computer Science and Engineering, CGPA: 8.11</i>	Assam, India July 2023 – June 2027
Kendriya Vidyalaya Narangi, Guwahati <i>Higher Secondary Certificate (HSC); Percentage: 86.8</i>	Assam, India July 2020 – June 2022
Kendriya Vidyalaya Narangi, Guwahati <i>Secondary School Certificate (SSC); Percentage: 86</i>	Assam, India July 2010 – June 2020

TECHNICAL SKILLS

Languages: C++, GoLang, Python, Java, C, SQL, Typescript, JavaScript, HTML, CSS
Development: MERN Stack (MongoDB, Express.js, React, Node.js), API Integration
Framework and Tools: Git, GitHub, VSCode
Platforms: Web, Windows, Linux
CS Fundamentals: Data Structures & Algorithms (DSA), Database Management System, Operating System, Computer Networks

EXPERIENCE

Satyendra Nath Bose Summer Research Program

AI-Driven Autonomous Recruitment And Multimodal Interviewing System [Github](#)
React, Express, Node js, MongoDB, Tailwind CSS Ongoing, 2026

- Architected a full-stack React/Node.js recruitment orchestrator with Clerk authentication and MongoDB.
- Developed an autonomous AI agent to dynamically generate personalized technical interview rubrics.
- Engineered a RAG pipeline using LangChain, Gemini, and ChromaDB for semantic candidate shortlisting.

PROJECTS

AI-Resume-Analyzer [Live Link](#) [Github](#)
React, Express, Node js, MongoDB, Tailwind CSS December-April, 2026

- Integrated **Gemini API** to analyze resumes and generate **ATS** compatibility feedback in real time.
- Engineered scalable **REST API** capable of handling **500+ concurrent users** and **26K+ requests/sec** during load testing.
- Secured user data utilizing **JWT** authentication and robust password hashing.
- Optimized backend performance to achieve **sub-20 ms average API latency** under high traffic conditions.

Expense Tracker [Live Link](#) [Github](#)
React, Express js, Node js, MongoDB, Socket.IO, Tailwind CSS January-May, 2026

- Developed a secure backend using **Node.js** and **MongoDB** to keep separate user wallets isolated.
- Sustained **12K+ requests/sec** and **100+ concurrent users** during performance testing.
- Implemented user login security using **JWT** authentication, password hashing, and strict email validation.
- Enhanced application reliability by mitigating **120K+ excessive requests** through rate limiting.

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

- Competitive Programming:** Achieved **Pupil** rank on Codeforces and **2 Star** on CodeChef through consistent participation in rated contests and problem-solving.
- Problem-Solving Experience:** Solved 1000+ Data Structures and Algorithms problems across platforms including [LeetCode](#), GeeksforGeeks, CodeChef, and [Codeforces](#), strengthening algorithmic thinking and coding proficiency.
- Codeforces Contest Performance:** Secured a global rank of **3028 out of 29,000+ participants** in *Codeforces Round 1031 (Div. 2)*, June 2025.
